MONTGOMERY COUNTY HAS THREE NEW CASES IN ONE-WEEK STRETCH

CRAWFORDSVILLE, Ind. — Montgomery County saw three additional confirmed cases of COVID-19 since last week’s update from the Montgomery County Health Department.

This brings the total lab-confirmed cases to 297 since the first case was recorded in March. Fatalities connected to the coronavirus disease remain at 20 overall.

Contact investigations for new cases are conducted by the Indiana State Department of Health.

A day-by-day breakdown along with demographics related to cases are available on the Indiana State Department of Health’s online dashboard at www.in.gov/coronavirus. Local demographics and details per day can be found by clicking on Montgomery County on the state map.

Below is a current breakdown of COVID-19 cases connected to residents of long-term care facilities in Montgomery County. The latest data shows no change in cases or deaths over the last week. The statistics to-date are compiled by the MCHD and will be updated periodically. This information is made available for lab-confirmed cases as of midnight July 12, 2020. No further information regarding residents will be released due to privacy.
