#### 6.0 Construction Engineering

Upon award of a construction contract by Montgomery County Drainage Board (OWNER), Clark Dietz (ENGINEER) shall provide Construction Phase engineering services delineated below. ENGINEER shall consult with OWNER and act as OWNER's representative as provided in the General Conditions. The extent and limitations of the duties, responsibilities and authority of ENGINEER as assigned in said General Conditions shall not be modified, except as ENGINEER may otherwise agree in writing. All of OWNER's instructions to Contractor will be issued through ENGINEER, who shall have authority to act on behalf of OWNER in dealings with Contractor to the extent provided in this Agreement and said General Conditions except as otherwise provided in writing.

- 6.1 Conformed Drawings and Specifications. Provide revised Drawings and Project Manual conformed to all Addenda issued prior to opening Bids. The conformed deliverables shall include up to three (3) bound Project Manuals plus three (3) full size and three (3) one-half size printed-paper Drawing sets to both OWNER and CONTRACTOR, and an electronic copy in the latest version of the Adobe PDF format.
- 6.2 Pre-Construction Conference and Progress Meetings. Conduct a Pre-Construction Conference prior to commencement of Work at the Project site. Also conduct construction progress meetings as needed. Prepare and distribute summary of all meetings.

- 6.3 Baselines and Benchmarks. As appropriate, provide survey control to Contractor for establishment of baselines and benchmarks.
- 6.4 Visits to Site and Observation of Construction. Perform the following services in connection with observations of each Contractor work in progress while it is in progress:
- Make visits to the Site at intervals appropriate to the various stages of construction, as ENGINEER deems necessary, in order to observe as an experienced and qualified design professional the progress and quality of the Work. Such visits and observations by ENGINEER, and the Resident Project Representative, if any, are not intended to be exhaustive or to extend to every aspect of a Contractor's work in progress or to involve detailed inspections of a Contractor's work in progress beyond the responsibilities specifically assigned to ENGINEER in this Agreement and the Contract Documents, but rather are to be limited to spot checking, selective sampling, and similar methods of general observation of the Work based on ENGINEER's exercise of professional judgment as assisted by the Resident Project Representative, if any. Based on information obtained during such visits and such observations, ENGINEER will determine in general if a Contractor's work is proceeding in accordance with the Contract Documents, and ENGINEER shall keep OWNER informed of the progress of the Work.
  - The purpose of ENGINEER's visits to, and representation by the Resident Project Representative, if any, at the Site, will be to enable ENGINEER to better carry out the duties and responsibilities assigned to and undertaken by ENGINEER during the Construction Phase, and, in addition, by the exercise of ENGINEER's efforts as an experienced and qualified design professional, to provide for OWNER a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by Contractor. ENGINEER shall not, during such visits or as a result of such observations of a Contractor's work in progress, supervise, direct, or have control over a Contractor's work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected by a Contractor, for safety precautions and programs incident to a Contractor's work, or for any failure of a Contractor to comply with Laws and Regulations applicable to Contractor's furnishing and performing the Work. Accordingly, ENGINEER neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform its work in accordance with the Contract Documents.
- 6.5 Defective Work. Recommend to OWNER that Contractor's work be disapproved and rejected while it is in progress if, on the basis of such observations, ENGINEER believes that such work will not produce a completed Project that conforms generally to the Contract Documents or that it will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents.
- 6.6 Clarifications and Interpretations; Field Orders. Issue necessary clarifications and interpretations of the Contract Documents as appropriate to the orderly completion of Contractor's work. Such clarifications and interpretations will be consistent with the intent of and reasonably inferable from the Contract Documents. ENGINEER may issue Field Orders authorizing minor variations from the requirements of the Contract Documents.

- 6.7 Change Orders and Work Change Directives. Recommend Change Orders and Work Change Directives to OWNER and prepare Change Orders and Work Change Directives as required. In addition, ENGINEER shall prepare typical documentation that appropriate governmental authorities having jurisdiction over the Project may require for review and approval of the change orders.
- 6.8 Shop Drawings and Samples. Review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which a Contractor is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such reviews and approvals or other action will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs incident thereto.
- 6.9 Substitutes and "or-equal." Evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by Contractor. It is assumed this will be limited to no more than three individual evaluations.
- 6.10 Inspections and Tests. Witness special inspections or tests of a Contractor's work required by the Contract Documents. Receive and review all certificates of inspections, tests, and approvals required by Laws and Regulations or the Contract Documents. ENGINEER's review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Contract Documents. ENGINEER shall be entitled to rely on the results of such tests.
- 6.11 Disagreements between OWNER and Contractor. Provide recommendations on all claims of OWNER and Contractor relating to the acceptability of a Contractor's work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of a Contractor's work. In rendering such decisions, ENGINEER shall be fair and not show partiality to OWNER or a Contractor and shall not be liable in connection with any decision rendered in good faith in such capacity.
- 6.12 Applications for Payment. Based on ENGINEER's observations as an experienced and qualified design professional and on review of Applications for Payment and accompanying supporting documentation ENGINEER shall:
- Determine the amounts that ENGINEER recommends the Contractor be paid. Such recommendations of payment will be in writing and will constitute ENGINEER's representation to OWNER, based on such observations and review, that, to the best of ENGINEER's knowledge, information and belief, that the Contractor's work has progressed to the point indicated, the quality of such work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents and to any other qualifications stated in the recommendation), and the conditions precedent to each Contractor's being entitled to such payment appear to have been fulfilled in so far as it is ENGINEER's responsibility to observe each Contractor's work. In the case of unit price work, ENGINEER's recommendations of payment will include final determinations of quantities and classifications of each Contractor's work (subject to any subsequent adjustments allowed by the Contract Documents).

- By recommending any payment, ENGINEER shall not thereby be deemed to have represented that observations made by ENGINEER to check the quality or quantity of each Contractor's work as it is performed and furnished have been exhaustive, extended to every aspect of each Contractor's work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to ENGINEER in this Agreement and the Contract Documents. Neither ENGINEER's review of each Contractor's work for the purposes of recommending payments nor ENGINEER's recommendation of any payment including final payment will impose on ENGINEER responsibility to supervise, direct, or control each Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto, or each Contractor's compliance with Laws and Regulations applicable to Contractor's furnishing and performing the Work. Prior to recommending payment request(s) from the Contractor(s) to the OWNER for payment, ENGINEER shall require lien waivers from prior payment applications from the Contractor.

#### 6.13 Contractor's Completion Documents.

- Receive and review maintenance and operating instructions, schedules, and guarantees.
- Receive bonds, certificates, or other evidence of insurance not previously submitted and required by the Contract Documents, certificates of inspection, tests and approvals, Shop Drawings, Samples and other data and the annotated record documents which are to be assembled by Contractor(s) in accordance with the Contract Documents to obtain final payment. The extent of such ENGINEER's review of these documents will be limited.
- ENGINEER shall transmit these documents to OWNER.

#### 6.14 Substantial Completion. Promptly after notice from the prime Contractor that the Contractor considers the entire Work ready for its intended use, in company with OWNER and Contractor, conduct an inspection to determine if the Work is Substantially Complete. ENGINEER shall prepare a list of any observed deficiencies during the inspection. At the direction of the OWNER, ENGINEER shall prepare and deliver a certificate of Substantial Completion to OWNER and Contractor.

#### 6.15 Final Notice of Acceptability of the Work. Conduct a final inspection to determine if the completed Work of the Contractor is acceptable so that ENGINEER may recommend, in writing, final payment to Contractor. Accompanying the recommendation for final payment, ENGINEER shall also provide a notice that the Work is acceptable to the best of ENGINEER's knowledge, information, and belief and based on the extent of the services provided by ENGINEER under this Scope of Services.

#### 6.16 Record Documents. Receive and review annotated record documents, which are to be assembled by the Contractor in accordance with the Contract Documents to obtain final payment. Prepare Record Drawings showing appropriate record information based on the Project annotated record documents received from each Contractor. The completed Record Drawing deliverables shall include up to three (3) full size and three (3) one-half size printed-paper sets, and an electronic copy of the Record Drawings in the latest version of the Adobe PDF format.

- Digital Data Submission. Prepare and submit digital record data in compliance with the OWNER's requirements.

#### 7.0 Representative Project Representative (RPR) Services

ENGINEER shall provide the Construction Phase services delineated below. The furnishing of such RPR's services will not extend ENGINEER's responsibilities or authority beyond the specific limits set forth elsewhere in this Agreement.

- 7.1 Provide the services of a resident project representative (RPR) at the Project sites to provide observation of work by Contractor(s). Services may be part-time or full-time as dictated by the work being performed.

#### **C. Schedule**

Complete final bid documents within 120 days from Notice to Proceed.

Construction Services are anticipated to be completed by December 31, 2022.

#### **D. Assumptions/Conditions**

This Amendment is subject to the following assumptions/conditions:

1. Construction inspection services fee is based on an assumed construction completion by December 31, 2022. If construction extends further, an adjustment to the fee will be mutually negotiated and agreed upon before extending services beyond December 31, 2022.
2. No easement acquisition is anticipated. Should the final design result in a shift in the storm sewer alignment that requires an easement, additional fee will be mutually negotiated and agreed upon to prepare easement acquisition documents or services.

# County Health Insurance - Premium Holiday

Friday, November 12, 2021 10:03 AM

We are recommending that a premium holiday be approved for the employee's health insurance premiums for December 2021.

County Auditor Jennifer Andel provided the following information regarding her analysis for the premium holiday:

"The average amount of the employees' share of the health insurance premiums per payroll is about \$12,500, the County's share averages around \$63K per pay. There are 3 pays in December, so if the premium holiday was for the entire month, that would mean that the fund would see approx. \$38.5K less. The current cash balance of the fund is \$1.037 million, and I have around \$186K in the processing queue (two October, 1 November payroll), which will bring it to over \$1.2million.

For the year, receipts vs expenditures for the fund currently has us sitting around \$284K ahead".

# HRA Contributions

Friday, November 12, 2021 10:03 AM

Our High Deductible Health Plan has a \$5,000 individual/\$10,000 family deductible and Out-of-Pocket (OOP). Under the current HRA, employees are responsible for the first \$3,000, then the HRA pays the next \$2,000. Spouses and children are not eligible for any HRA funds.

We are recommending that we amend the HRA to include funds for spouses and children. Under the proposed arrangement, any covered member would be responsible for the first \$3,000 in Deductible/OOP, then the HRA will pay the remaining \$2,000 with a family maximum HRA benefit of \$4,000. This arrangement would reduce the full OOP exposure for each member to \$3,000 with a family cap at \$6,000.

### **Ordinance 2021 – 38**

#### **Clothing Allowance Policy**

**Whereas**, the Montgomery County Employee Handbook details the policies for the employees of the County; and

**Whereas**, the Montgomery County Code of Ordinances, Chapter 36, details the policies of the County; and

**Whereas**, the County requires certain employees to wear county uniforms; and

**Whereas**, the County provides for financial allowances to employees required to wear and maintain county uniforms; and

**Whereas**, the Montgomery County Board of Commissioners finds that it is in the best interest of the County, its citizens, and employees, to adopt a clothing allowance policy to detail the regulations regarding the county's clothing allowance and use policies.

**Therefore, it is ordained**, that a new section of the Employee Handbook, Section 4.20, shall be added and this new section shall read as follows:

**“§ 4.20 Uniform and Clothing Allowance.**

- A. *Employees Eligible for Allowance.* Employees of the Montgomery County Central Communications Center, Jail, Sheriff's Department, and Highway Department are required to wear uniforms and/or clothing that meet federal, state, and local standards in both design, uniformity, and safety and thus will be provided a uniform and clothing allowance in conformity with the provision of this policy.
- B. *Distribution and Maintenance.* The Montgomery County Council has the authority to provide a uniform, clothing, and safety equipment allowance in its annual budget process. Replacement of any clothing is the responsibility of the employee and must be done as needed and upon approval by the employee's Department Head. Uniforms shall be maintained in proper working and presentable condition.

- C. *Allowance.* Eligible employees will receive an annual uniform and clothing allowance equal to the amount authorized by the Montgomery County Council per year, per eligible employee working full time or part-time. This allowance will be pro-rated based on the date of hire for any employee of the County who has not completed one year of employment as of the beginning of the calendar year. The Montgomery County Council shall retain the ability to amend or repeal this allowance at any time through its budgetary process.
- D. *Use and Return Policy.* When off-duty, an employee may not wear their uniform in public, except when traveling to and from work, unless expressly authorized by his or her Department Head. When an individual leaves the employment of the County, the individual's uniform and/or clothing must be returned to his or her Department Head. The Town may withhold from the employee's check or final paycheck the cost of any items that are not returned.
- E. *Internal Controls.* Payment of this allowance will only be made to an employee that submits satisfactory proof of uniform and/or clothing purchases and/or expenses. Employees shall retain all receipts and other documentation related to this policy and present copies of these records to the employee's Department Head and the County Auditor for approval. Employees that do not retain proof of their expenditures will not be paid this allowance. The County Auditor shall process this allowance through the County's payroll system. All other internal controls provisions adopted by the County shall be adhered to in the administration of this policy."

**It is further ordained** that a new section of the Montgomery County Code of Ordinances, Section 36.37, is hereby added and this new section shall read as follows:

**"§ 36.37 Uniform and Clothing Allowance.**

## **AMENDED PLAN**

### **MONTGOMERY COUNTY AMERICAN RESCUE PLAN ACT OF 2021 CORONAVIRUS STATE AND LOCAL FISCAL RECOVERY FUNDS PLAN**

#### **Introduction**

The U.S. Department of the Treasury announced the launch of the Coronavirus State and Local Fiscal Recovery Funds, established by the American Rescue Plan Act of 2021 (ARPA), in order to provide \$350 Billion in emergency funding for eligible state, local, territorial and tribal governments. The Department of Treasury has released details regarding how these funds may be used to respond to acute pandemic response needs, fill revenue shortfalls among these governments, and support the communities and populations hit hardest by the coronavirus (COVID-19) crisis.

The Department of Treasury has allocated the sum of \$7,446,707 to Montgomery County from these funds to be used for eligible costs. Montgomery County has received a portion of these funds and will receive the remaining allocation in 2022.

Montgomery County is required to develop, adopt and implement a plan for the use of these funds which comply with guidance from the Department of Treasury. The funds may be used to:

1. Support public health expenditures, by, for example funding COVID-19 mitigation efforts, medical expenses, behavioral healthcare, and certain public health and safety staff;
2. Address negative economic impacts caused by the public health emergency, including economic harms to workers, households, small business, impacted industries, and the public sector;
3. Replace lost public sector revenue, using this funding to provide government services to the extent of the reduction in revenue experienced due to the pandemic;
4. Provide premium pay for essential workers, offering additional support to those who have and will bear the greatest health risks because of their service in critical infrastructure; and
5. Invest in water, sewer, and broadband infrastructure, making necessary investments to improve access to clean drinking water, support vital wastewater and stormwater infrastructure, and to expand access to broadband internet.

## ARPA Use of Funds Plan

Given the eligible uses and the acute pandemic response needs of Montgomery County, the Montgomery County government plans to use the ARPA funds consistent with the rules, regulations and guidance of the Department of Treasurer and the Indiana Finance Administration for the following eligible expenses:

1. **Water Infrastructure:** An amount up to \$5,040,000 for the extension of water infrastructure to rural areas which are underserved in order to provide clean drinking water and other water services. This extension will be from existing water service infrastructure along Nucor Road, extending south on Nucor Road and west from Nucor Road along Comfort Drive;

2. **Replacement of Lost Public Sector Revenue:** An amount up to \$2,~~246,707~~091,307 to replace lost public sector revenues which will be used to provide government services; and

3. **Address Negative Economic Impacts:** An amount of up to \$145,000 to address negative economic impacts caused by the public health emergency. These funds will be granted to small businesses, impacted industries, and not-for-profit organizations which suffered negative economic impacts caused by the COVID-19 crisis.

4. **Stormwater Infrastructure:** An amount of up to \$~~530,799~~170,400 for the extension of stormwater infrastructure for an underserved area in the unincorporated community of Mace.
