ONE DEATH, TWO NEW CASES CONFIRMED IN MONTGOMERY COUNTY

Breakdown of COVID-19 Cases in Long-Term Care Facilities Provided by Health Department

CRAWFORDSVILLE, Ind. — The Montgomery County Health Department (MCHD) announced today the death of one Montgomery County resident in connection to CONVID-19. The MCHD has also confirmed two new positive cases, which brings the total of lab-confirmed cases of COVID-19 in Montgomery County to 142 since its first case was recorded in March. There have been six total deaths.

Health department staff have launched contact investigations in connection with the two additional cases.

Additionally, in response to recent media requests for a detailed breakdown of COVID-19 cases connected to residents of long-term care facilities in Montgomery County, the MCHD has compiled statistics to-date in the table below. This information is made available for lab-confirmed cases as of May 12, 2020 and will be updated periodically. No further information regarding residents will be released due to privacy laws.
