## ARTICLE 13—SOLAR FARMS AND FACILITIES

**13.01 Purpose.** The regulation of solar energy systems, solar farms and facilities and other solar energy devices is authorized by Indiana Code §36-7-2-2 and is designed to protect the public health, welfare and safety. The purpose of this Section is to plan for and regulate the use, improvement, and maintenance of real property and the location, condition, and maintenance of structures and other improvements. These regulations allow solar energy systems, solar farms and facilities and other solar energy devices in certain areas, and, therefore, do not have the effect of unreasonably restricting the use of such facilities other than for the preservation and protection of the public health and safety. It is the policy of Montgomery County to promote and encourage the use of solar energy systems and facilities, and these regulations are not intended to and do not have the effect of significantly increasing the cost of such systems, decreasing the efficiency of such systems, or impeding alternative systems of comparable cost and efficiency.

**13.02 Permitted Districts.** Solar energy systems, solar farms and facilities are allowed only in the Agriculture and Industrial Zoning Districts.

**13.03. Exemptions.** Solar devices which are part of the structure of a residence or business or part of the permitted yard of a residence or business and which are designed to provide electrical power, heating or cooling, or water heating only for the residence or business are exempt from this regulation.

**13.04 Setbacks:** The following setbacks apply to all ground-mounted solar panels and arrays:

Description	Setback	Comments
Distance from property line	100 feet	
Distance from center of road, alley or public way	100 feet	But not in right of way
Distance from property line if adjoining property has a residence	200 feet	
Distance from closest exterior wall of residence	500 feet	Included houses separated from solar facility by other parcels, roads, alleys, rail lines, and public ways

~~All ground-mounted solar panels or arrays must be at least thirty (30) feet from any property line, at least one hundred (100) feet from the center of any road, street, highway, alley or public way, at least two hundred (200) feet from the property line if adjoined by property that is zoned residential, and at least two (200) hundred feet from the property line if adjoined by property that is zoned agricultural which has a single family dwelling within five hundred (500) feet of the solar panels or arrays. When the solar facilities for a single project encompass multiple parcels, there is no required setback from a property line for the internal property lines in the project.~~

~~Security fencing~~, access roads, and distribution poles and wires may be located within the setbacks but may not be located in a road right-of-way.

An adjacent landowner who benefits from the required setbacks may waive all or a portion of the setback by executing a written waiver agreement with the operator of the solar facility. This waiver must be recorded and filed with the Zoning Administrator.

**13.05 Height Limitations:** Ground-mounted solar panels or arrays may not exceed twenty (20) feet in height as measured from the natural grade to the top of the panel or array when at its highest position.

**13.06 Permits.** Each property owner must obtain a solar farm permit prior to constructing, operating or maintaining a solar energy system, farm or facility. In order to obtain a permit, the applicant must submit to the Zoning Administrator a conceptual site plan which includes the general footprint of the solar energy system, farm or facility the number of panels, the generating capacity, the location of all fences, electrical poles and lines, the location of all other equipment and structures, the location of any and all underground electrical lines, facilities and structures, the location of all access roads, rights-of-way and easements, drainage plan for the site which complies with the Montgomery County Storm Water Ordinance, a road use plan for construction, specifications for equipment, compliance with all applicable industry standards and safety codes, Federal Aviation Administration rules and regulations, and Federal Communications Commission rules and regulations. Within 15 days of receipt of an application for a permit, the Zoning Administrator will determine whether the application is complete. The Zoning Administrator will notify the applicant in writing of his determination. If the application is complete, the application will be reviewed by the Zoning Administrator and then by the Plan Commission as a request for a development plan review, as provided for in Section 13. If the application is not complete, the applicant must provide to the Zoning Administrator the supplemental information within sixty (60) days. If the applicant fails to provide the supplemental material for the application in a timely manner, the application will be dismissed.

**13.07 Development Plan Review:** The Plan Commission will conduct a public hearing on the application as a request for a development plan review, as provided for in Section 13 of the Zoning Ordinance.

**13.08 Issuance of Permit:** If the Plan Commission approves the development plan and the applicant has satisfied all of the requirements of this Ordinance, the Subdivision Control Ordinance, and all other applicable ordinances, rules and regulations, the Zoning Administrator will issue an improvement location permit.

**13.09 Permit Fee:** At the time of submission, the applicant will submit to the Zoning Administrator a nonrefundable fee in the amount of \$500.00, plus the following additional fee for solar energy systems, farms or facilities that are more than one hundred (100) acres:

Acres	Additional Fee
100+ to 200	\$50
200+ to 300	\$100
300+ to 400	\$150
400+ to 500	\$200
500+ to 600	\$250
600+ to 700	\$300
700+ to 800	\$350
800+ to 900	\$400
900+ to 1,000	\$450
1,000+	\$500

**13.10 Fencing:** All solar energy systems, farms and facilities shall be surrounded by a security fence not less than eight (8) feet in height and not more than twelve (12) feet in height in order to prevent unauthorized access. All fences will be painted black or coated with black vinyl or similar coating. All gates will be locked. The applicant will place a sign, not to exceed eight square feet in area, which contains the name and address of the operator and an emergency telephone contact number for the operator.

**13.11 Exterior Lighting.** All exterior safety lighting will be developed in a manner which precludes light trespass onto adjoining parcels and which is limited to the amount of light needed for maintenance, safety and security.

**13.12 Legal Drains:** No solar energy system, farm or facility may encroach upon the seventy-five (75) easement of any legal drain or ditch. If the construction of the solar energy system, farm or facility requires the relocation of any legal drain or ditch, such relocation must be approved by the Montgomery County Drainage Board.

**13.13 Private and Mutual Drains:** No solar energy system, farm or facility may encroach upon any private or mutual drain or ditch. If the construction of the solar energy system, farm or facility requires the relocation of any private or mutual drain or ditch, such relocation must be approved by the parties to the private or mutual drain or ditch, performed at the expense of the operator, and relocated in a manner so as not to materially impede the function of the drain or ditch. This obligation to refrain from encroaching upon any private or mutual drain or ditch continues and applies even if the encroachment is discovered after construction of the project.

**13.14 Damage to Roads:** The applicant will be allowed to use County roads to transport equipment, materials and supplies to the location for construction. Prior to the issuance of a permit, the applicant must provide to the Zoning Administrator a road use plan. This plan must be approved by the Zoning Administrator and the County Highway Superintendent. The applicant will be responsible for any road and ditch damage caused by the applicant during construction and operations. In order to ensure the applicant's financial responsibility, the

applicant must provide to the County a bond, letter of credit or other surety in an amount determined by the County Engineer to be sufficient to cover the expense of remediation of damages. The amount of the bond, letter of credit or other surety required must be the County Engineer's estimate of road damages caused during the construction of solar projects. If the applicant disagrees with the determination by the County Engineer of the amount of the bond, letter of credit or other surety, the applicant may appeal this determination to the Board of Zoning Appeals. This bond, letter of credit or surety must be in an amount and in a form acceptable to the Zoning Administrator. After construction of the project, the County Engineer will inspect the roads and ditches contained in the road use plan and determine whether damage has resulted because of the applicant's project. If the County Engineer finds that such damage has occurred, the Engineer will provide written notice to the applicant of the estimated cost of the remediation. The County will cause the remediation to occur, and the Engineer will certify to the applicant the expense of the remediation. The applicant will pay to the County the certified amount within sixty (60) days of receipt of the notice of the certified amount. If the applicant fails to timely pay the remediation expense, the County will be entitled to file a claim with the bond company or holder of the letter of credit or other surety and be paid from the bond, letter of credit or other surety.

**13.15 Enforcement:** In the event of a violation of this Section, the Zoning Administrator may enforce the Ordinance using the rights and remedies provided for in Section 5.04 of the Zoning Ordinance.

(Am. Ord. 2020-27, passed, 6/27/2020).

17. The contract to be entered into between the County and the Successful Proposer shall in no way be deemed to be the grant by County to the Successful Proposer of the exclusive right to provide the Contracted Services within the contracted area. Rather, the contract is intended only to provide a financial incentive and partial reimbursement of the costs of providing the Contracted Services in the contracted area for the health, safety, and benefit of the County's citizenry. Likewise, the existence of the contemplated contractual relationship between the County and the Successful Proposer shall in no way imply that the Successful Proposer will be preferred in the determination by Montgomery County Central Communications Center and its dispatchers of which first responder among the array of potential first responders will be called out for any emergency run. All such dispatching decisions shall be made by the dispatchers of the County's Emergency Communications Department in accordance with the protocols and procedures of that department as, from time to time, developed and adopted.

Accounts will be forwarded to EAGLE via an electronic report such as Excel. COUNTY does not contract to place with EAGLE any specific number or percentage of accounts at any time, but the terms and conditions of this Agreement shall apply and be incorporated as a part of all placements that shall be made. EAGLE in collaboration with COUNTY may review and update processes as needed.

### ARTICLE II – LICENSE TO ENGAGE IN BUSINESS

EAGLE is in the business of collecting accounts. EAGLE is licensed to engage in business as a collection bureau in the state of Indiana. EAGLE shall submit such evidence of compliance with regulatory, bonding, or licensing requirements as COUNTY may demand from time to time.

This Agreement shall commence on the date set forth above and shall continue in effect thereafter until terminated in accordance with its provisions. Each party to this Agreement shall have the absolute right to terminate this Agreement at any time with or without justification or cause, by giving written notice not less than thirty (30) days prior to the effective date of such termination. Neither party shall be liable to the other for any damages or losses whatsoever, which are directly, incidentally or remotely caused by or result from the termination of this Agreement. Such termination shall not operate to affect any indebtedness due EAGLE for commissions earned pursuant to the other terms and provisions contained in this Agreement. It is EAGLE's duty to remit to COUNTY all moneys received from delinquent accounts referred for collection. In accordance with this Agreement, all terms and provisions as set out herein shall survive termination of this Agreement by either party. Notwithstanding anything to the contrary in this Agreement, termination provided for in this Article shall not in any manner effect the obligations of EAGLE under this Agreement to protect, defend, indemnify and hold forever harmless COUNTY from all acts or omissions prior to such termination.

### ARTICLE IV – PAYMENT

EAGLE shall add a thirty percent (30%) collection fee to each account it receives. EAGLE shall be compensated as follows:

- 1) Should payment in full be received by EAGLE: EAGLE shall keep the 30% fee and remit 100% of the principal to COUNTY.
- 2) Should partial payment be received by EAGLE: EAGLE shall pro-rate the payment so that it receives \$0.30 for every \$1.00 that it remits to COUNTY.
- 3) Should payment in full be received by COUNTY: EAGLE shall invoice COUNTY for the 30% fee.
- 4) Should partial payment be received by COUNTY: EAGLE shall invoice COUNTY for a pro-rated amount so that EAGLE receives \$0.30 for every \$1.00 that COUNTY keeps.

EAGLE shall remit all money due COUNTY paid to it by the tenth (10<sup>th</sup>) day of the following month with an invoice for EAGLE fees based on the above terms. COUNTY agrees to remit any fees due EAGLE within thirty (30) days of invoice receipt. EAGLE shall indemnify, hold harmless and defend COUNTY, its servants, agents and employees from any and all claims, demands, suits, judgments, damages, costs and expenses, including reasonable attorney fees, and any and all liability arising from EAGLE's failure to conduct its business operations in full compliance with all applicable statutes, ordinances, rules and regulations.

EAGLE will file suit as the assignee of the Clerk of the County.

Any necessary filing fees, court costs and attorney fees will be reimbursed by the defendant.

#### ARTICLE XIII – WAIVER

The failure of either party to enforce at time, the terms, provisions and covenants of this Agreement shall in no way be construed to be a waiver of such terms, provisions, and covenants; nor shall such failure affect the validity of this Agreement, or any part thereof; nor affect the right of either party to thereafter enforce each and every such term, provision and covenant therein.

#### ARTICLE XIV – NON EXCLUSIVITY

This Agreement shall not be interpreted or construed in any manner whatsoever as giving EAGLE exclusive right to collection services which might be required by COUNTY.

#### ARTICLE XV – SEVERABILITY

In the event that any provision hereof is found invalid or unenforceable, pursuant to judicial decree or decision, the remainder of this Agreement shall remain valid and enforceable according to its terms.

#### ARTICLE XVI – MISCELLANEOUS PROVISIONS
